Housing Authorities/Commissions which have adopted smoke-free policies*

Updated 1/20/11

The Smoke-Free Environments Law Project maintains this up-dated listing of all the public housing authorities/commissions in the U.S. that we know of which have adopted smoke-free policies for one or more of their apartment buildings. The listing is done largely in the order in which the policies have been adopted, and with data which is as accurate as we can make it, but we can't vouch for its accuracy. As of January, 2011, at least 230 local housing authorities had adopted smoke-free policies for some or all of their apartment buildings, with about 214 being adopted since the beginning of January, 2005; an average of over 2.9 per month. That constitutes an increase in the number of housing authorities with smoke-free policies of almost 1,300% in 72 months. The 27 states with such policies, with the number of individual local housing authorities with smoke-free policies in parentheses, include Michigan (55), Minnesota (34), Nebraska (24), Maine (20), Colorado (16), Washington (14), Oregon (14), New Hampshire (10), New Jersey (9), California (8), Alaska (4), Idaho (3), Utah (3), Wisconsin (2), Arkansas (2), Florida, Montana, Indiana, Kentucky, Pennsylvania, Texas, Massachusetts, Connecticut, Vermont, Illinois, New York and Kansas. To access the listing, in pdf format, go to <http://www.tcs.org/sfelp/SFHousingAuthorities.pdf>

- 1) Salem, OR Effective February, 1992. 1 building w/ 54 units for elderly. Their 7 more buildings will become totally smoke-free, phased in from Sept., 2009 thru Sept., 2011
