

Tool #12

Question: How do I best communicate with other local coordinators working on smoke-free regulations?

Answer: List-serve – etsmi-talk@smokefree.net; monthly conference calls

The Task Force has set up a list-serve through www.smokefree.net. This list-serve has been designed specifically as a communication resource for groups who are currently working on smoke-free regulations. If you have a question related to smoke-free regulation issues you can post it to everyone on the list and get reaction from colleagues around the state. To reach everyone at the same time, simply send e-mail to etsmi-talk@smokefree.net. If you need help signing up, see contact information below.

Additionally, the MDCH Tobacco Section has set up monthly phone calls for groups involved in smoke-free regulations for the purpose of focused discussions on a specific issue or to update on local progress.
